

Position: Environmental Professional I - Full-time

Code: A18

We are looking for an enthusiastic, self-motivated individual with the ability to work independently as well as in a team atmosphere. The ideal candidate should be a quick learner, have strong communication and problem solving skills and the ability to think on their feet. A "can-do" attitude is essential.

Desired Skills/Experience:

- Performed or assisted with environmental site investigations including sampling of soil, groundwater and soil vapor following proper sampling protocols and regulatory requirements;
- Familiarity with environmental field equipment (PID, Multi Gas Meter, Interface Probes, CAMP equipment, etc.);
- Experience with conducting Phase I Environmental Site Assessments and reporting;
- Excellent written and verbal communication and organizational skills;
- Ability to work on multiple tasks and prioritize accordingly; and
- Working knowledge of Microsoft Office Suite.

Job Requirements:

- Bachelor's degree in a science related field
- 1-3 years' of related experience in environmental assessment and remediation
- Driver License in good standing

Safety Certifications:

- 40 Hour OSHA HAZWOPER Certification
- 10 or 30 Hour OSHA Construction Certification
- SWPPP Certification, a plus

FLS offers the ideal candidate the ability to work on a wide range of projects for a diverse portfolio of clients. To apply, forward a cover letter with your resume, your interview schedule availability, start-date availability, salary requirements and a contact phone number. Please indicate on e-mail subject line "Environmental A18".
